" Previous to Language Line we did not have any telephone interpreting service. We had looked at a variety of sources and short listed a couple. We invited Prestige Network Development Director along to a senior meeting to discuss our expectations and if they could meet our needs. We were extremely impressed with what they could offer and it was particularly value for money. We decided to go with Prestige Network and it has been operating for a number of months now.

All front line departments have access to the service and we are getting more requests from others. We are all particularly impressed with the service and all officers that have used it are very pleased. I have no faults on their service whatsoever. It is easy, fast and a friendly. I would strongly recommend it."
